There is no fact more clearly established in the physiology of man than this, that the brain expends its energies and itself during the hours of wakefulness, and that these are recuperated during sleep; if the recuperation does not equal the expenditure the brain withers; this is insanity. Thus it is that in early English history persons who were condemned to death by being prevented from sleeping, always died raying maniacs; thus it is also that those who are starved to death become insane; the brain is not nourished and they cannot sleep. The practical inferences are three:

Those who think most, who do most brain work, require most sleep. That time "sayed" from necessary sleep is infallibly destructive to

mind, body and estate. Give yourself, your children, your servants, give all who are under you the fullest amount of sleep they will take by compelling them to go to bed at some regular, early hour, and to rise in the morning the moment they awake of themselves, and within a fortnight nature, with almost the regularity of the rising sun, will unloose the bonds of sleep, the moment enough repose has been secured for the wants of the system. This and as to the question how much sleep anyone requires, each must be a rule for himself; great nature will never fail to write it out to the observer, under the regulations just

Landon Lancel. It is, as we have often labored to

show, a mistake to suppose that there is any warmth in clothes. Animal heat is the direct result of changes going on within the body itself. Nutrition by food and the discharge of energy by exercise are the efficient causes of heat. Clothes 'seem" good and warm because they prevent the cold air and objects with a capacity for heat which surround the body from attracting ism. The clothing is simply an in-sulator. It follows that it should be light in weight, and above all things that it should permit the free and full circulation of blood through every part of the system-to the end of every finger and toe and that the muscular apparatus of the extremities should be in perfect working order. If we will wear foot coverings, whether boots or stockings, which compress the feet and render the separate action of work, and its supply of food is lim-ited, it must be cold. The resort to stouter and heavier clothing under
such circumstances is simply ridion

J. W. Tyler
Decatur, Jan 4, 1881-d5wif such circumstances is simply ridiculous. Generally it is the stockings that compress the teet. The garter acts as a ligature, and diminishes the blood supply, while the stocking itself acts as a bandage, and imnedes the circulation through the extremities.

Two first-class attractions will appear at the opera house this week.

TUESDAY EVENING.

To-morrow evening the world-famed Billy Arlington superb troups will give a refined negro minstrel performance, prescating new songs, rattling off new jokes, and giving many new and pleasant features never before presented here. Baye an exchange: "Billy Arlington has a little singing dog that warbles with him when he plays the banjo, engaging in duets and choruses. Billy also introduces burlesque horses, birds, and his mammoth elephant, "Rarnum." Secure your seats now.

TRURSDAY EVENING. On Thursday evening will witness the return of the Rice Evangeline Party. Then will be given "The New Evangeline," rewritten and revised for the present season. Says the Boston Glabe:

Last evening Rice's New Extravaganza Combination appeared in the "New Evan-geline" at the Globe Theatre. "Vangy" appeared to have been run through a threshing machine—we mean the piece, and not the presty little lady with bright eyes and a cunning French accent. It is different from the old version, and it is as good if not better. Some of the musias good if not better. Some of the music remains and there is considerable new added. The part of Le Blanc has not suffered by the change, and the new part of Peter Papyrus is a great addition. The piece was finely played. Hiss Verona Jarheau was the Evangeline, and looked and acted prettily. Miss Searle, as Gabriel, deserves the same praise with a special compliment for her liveliness in dancing and her marvellously nice costumes. Mr. Fortegone as Calberra was tumes. Mr. Fortesque, as Catherine, was "immenee." Hiss Rose Dana was the tumes. Eulalie, and in singing the interpolated Edialic, and in singing the interpolated "Once Upon a Time," was just as nice as could be, "and the audience seement to know it. Mr. Ed. Chapman was excellent as Le Bianc. Mr. Charles Groves did well as Peter Papyrus, and Harry Hunter lished as only he can, and caught lots of laughter and applause. Mr. James W. Mack, as Capt Deithrich, was eminently satisfactory. Miss Japonic Calef eminently satisfactory. Miss Jennie Calef was a bright Felician. Mr. George A Schiller got the right idea of the Police-

man, and everybody else did finely. General admission, 50 cents: reserved seats only 75 cents, now on sale at Curtis & Co.'s.

At the stage of the proceedings, comrade Geo. S. Durfee was called to pre side, by President J. H. Moore.

Upon motion of comrade Moore, it was agreed that the Association proceed to the election of officers for the ensuing year, and that this Association also proceed to elect vice presidents for each township in Macon county, respectively; nresident and that the vice shall be the presidents of their respective township organizations, unless otherwise provided by said township organizations In accordance with the foregoing mo-

Shorb, Decatur township ; Jerry P. Nicholson, Mt. Zion; J. B. Siberling, Pleasant View; L. R. Stickle, Wheatland; Isaac Peeper, Macon ; H. H. Rosengrantz, Blue Mound ; A. W. Wells, Niantic; H. C. J. H. Moore, Pres. JNO. A. BARNES, Sec'y.

Will Ho Be Houg? The costs in the Patsy Devine case, in isloomington, foot up to \$625. The minerable man has only a little over a week to live, unless the Supreme Court interferes. He does not seem to realize that his end is so near, and insists that he is not the murderer of Goodfellow. He makes this assertion whenever anything is said to him on the subject.-Peorie

Devine has been sentenced to be hung in the jail yard at Clinton on Friday next. The talk is that, the murderer's sentence may possibly be commuted to imprisonment for life, as it is claimed the evidence against him was mainly circumstantial.

"ONE fold an will buy a most pair of bed blankets" they say. We have heard of these blankets, and if the sticks were taken out of them they might do for horse covers, or if there were and wool is them IT MIGHT BE PICKED OUT and some-Thing useful made of it And if Labon were cheap engual, a purchaser of one of those "good, heavy winter closks at 81.90," might get some one to noth ir ro **CETHER** while wearing it. The mention of these extraordinary bargains by Catchem & Cheatem recalls one of the many offered by Bragg, Busier & Blow, when Catchem or Chestem, we don't know which, was the rearing tion a stock of goods that would have over shadowed that of A. T. Stewart & Co. (although nothing hardly but the tag and of a retail stock from another near town), AND TWENTY THOUSAND pairs of kid gloves at 49c. a pair, and qualified this by saying, "WELL worth one dollar a pair." when in fact their whole stock did not amount to one-tenth part of what they claimed to have had invested in kid gloves alone. When Linn & Scruggs advertise goods at a low price the people are sure of getting them. But it is plain to be seen that when Bragg, Bluster & Blow, or their successors, Catchem and Cheatem, prostitute the papers to their base uses, the people do not know whether they are going to get FLESH, FISH OR rown-the supposition, however, would he—ford fid&ce1

We should like very much to have the opportunity to show you through our ine and give you prices. We have always made it a point to have all our advertisements STRICTLY TRUE, and when we aliude to our stock being so far in excess of all others here, and our prices lower, we do so knowing that an inspection on your part will convince you of the facts.
